RESULTS

- Reduced the average time from a report was verified until the issue was fixed from 1 month to 8 days
- Organized and transitioned to a [Public Program](#) on [HackerOne](#), including removing a backlog of 30 security issues in under 2 months
- Performed over 30 security tests over a period of 1,5 years, including penetration tests of networks, mobile apps, web apps, APIs and a variety of applications

SKILLS

Computer Science

- Programming languages:
Python, BASH, JavaScript, NodeJS, Java, C, Assembly, SQL
- Tools:
Burp Suite PRO, Kali Linux, NMAP, NetCat, MITM Proxy, Metasploit
- Other:
GCP, OWASP Top 10, JIRA, TCP/IP, Automation, HackerOne, Slack Notification Integration

CERTIFICATIONS & TRAININGS

- GIAC – Penetration Tester (GPEN) - 94% score – Passed 22 October 2019
- Offensive Mobile Exploitation & Reversing – Typhooncon 2019

RESPONSIBILITY & LEADERSHIP

- Currently leading 6 engineers
- Responsible for Incident Response for application-based services (about 164 million monthly users)
- Responsible for the daily operations of the LINE Bug Bounty program, with a yearly budget of about \$ 300.000 per year
- Responsible for a variety of security related projects and cooperation between the Japanese main office and our offices in Taiwan and Thailand
- Leadership experience from the Norwegian Armed Forces
- Vice-president and co-founder of a student organization at Keio University

I am skilled at identifying areas of improvement, then planning and acting on this information in order to achieve results. I am used to taking on responsibilities, working independently and planning and following up my own tasks and tasks assigned to co-workers.

SECURITY

- Experienced in performing risk assessments and penetration tests for services and code bases from a big, international company
- Have experience from Bug Bounties. Have found vulnerabilities in the services of multiple programs.
- Most experienced in:
 - Java Spring web applications
 - Kotlin Android applications
 - Swift iOS applications
- Also have experience testing a wide variety of other programming languages and frameworks

WORK EXPERIENCE

- 2019.01 – **Application Security Engineer, LINE Corp.**
- Engineer responsible for finding, evaluating and reproducing vulnerabilities and consulting on how to remedy the issue
 - Improved efficiency of the LINE Bug Bounty program, **reducing the workload by 1/3.**
 - Time from report submitted to first response went from 15 h to 4 h on average, since I began leading the team
 - Responsible for operations, analysis and maintenance of multiple critical tools that detect vulnerabilities in our live environment
- 2018.04 – 2019.1 **Infrastructure Security Engineer, LINE Corp.**
- Primarily working to secure infrastructure
 - Implement solutions to protect internal systems and networks
 - Develop solutions to collect data for analysis and use it to improve existing solutions
 - Responsible for functionality that evaluate the security of each employee and presents the results using a score from 0-100 together with keywords, in order to improve security
- 2017.11 - 2017.12 **Security Consulting (Internship), Toyo Corporation**
- Responsible for preparing out of the box security solutions for customers as well as evaluating available solutions
- 2016.09 – 2018.08 **Student Assistant: Intro to Computer Security, Keio University SFC**
- Present cybersecurity news and demonstrate attack methods and security concepts
- 2012.09 – 2013.08 **Sergeant, Norwegian Armed Forces**
- Squadleader for two Military Intelligence squads (16 soldiers)
 - Responsible for training, education and daily operations
 - Assist in active duty operations within Norway

FORSVARET

EDUCATION

- 2016.09 – 2018.09 **Masters of Media and Governance: Cyber Informatics, Keio University SFC**
Computer Security – GPA: 3.94
- 2013.09 – 2016.06 **Bachelor of Informatics: Programming and Networks, University of Oslo**
Major: Computer Security
- 2011.07 – 2012.06 **UB-Jeger, Heimevernets Befalsskole (The Norwegian Home Guard's NCO school)**

PERSONAL

I am a dedicated and reliable person with leadership experience. I love new challenges and expanding my horizon. I believe a wide platform of knowledge is important to continue personal development. My hobbies are photography, security challenges like CTFs and Wargames, participating in Bug Bounties and working out.

LANGUAGE

- Norwegian (Native)
- English (Business)
- Japanese (Fluent)
- Spanish (Beginner)
